These annotations can be kept private, shared with a group within Diigo or a special link forwarded to someone else. Platform: iPhone, iPad, Android, Mac, Windows

iProcrastinate is the ideal task manager for anyone who doesn't want their todo list to get in the way of actually getting things done! Great for anyone who is looking for a mobile, easy -to-use task manager. Use a redesigned Calendar to help manage large numbers of upcoming or recently completed Tasks. Break complex Tasks down into Steps for step-by-step tracking of your Task's progress! Platform: Windows

**Forest: Stay Focused** is a unique app that prevents phone addiction and procrastination. Users will "plant a tree" whenever they want to focus. The tree will then grow in the following time, and it will be killed if you leave the app or break your focus. Users can build their forest every day, representing their focused time and allowing them to track their daily phone usage and screen time.

**StayFree- Phone Usage Tracker & Overuse** is a visual and user-friendly Android application that allow you to show how much time you spend on your smartphone and your favorite apps. You can set usage limits for your apps and receive alerts when exceeding the usage limit. You can also view the details of your usage and statistics of your history.

**Focus To-Do: Pomodoro Timer & Tasks List Organizer** is an easy-to-use time and task management application. Users are able to set an execution time for the task, allowing them to focus on the task until the time is up. Users can also use the app to make plans for work or school, record shopping lists, set up birthday reminders, or arrange your schedule.
